## Notice Concerning Changes in Reportable Segments

TAZMO CO., LTD. (the "Company") hereby announces that its Board of Directors has resolved at a meeting held today to change reportable segments from the fiscal year ending December 2026 (January 1, 2026 to December 31, 2026), as follows.

### 1. Reason for reportable segments change

The Company is primarily engaged in the "Process Equipment Business," which is disclosed as a reportable segment. We have been disclosing the "Process Equipment Business" consisting of four sub-segments, "Transfer equipment," "Semiconductor Equipment," "Cleaning equipment," and "Coater." However, for the "Coater" segment, which has been mainly dealing with FPD (flat panel display) manufacturing equipment, we have decided to change to a reportable segment that integrates "Semiconductor Equipment" and "Coater" from a review of our business portfolio due to the fact that we cannot expect future sales growth of FPD manufacturing equipment and the increase in the number of semiconductor manufacturing equipment projects.

### 2. Details of reportable segments changes

[Current]		[After]
Process Equipment Business		Process Equipment Business
Semiconductor equipment		Semiconductor equipment
Transfer equipment		Transfer equipment
Cleaning equipment		Cleaning equipment
Coater		Precision molding dies and plastic moldings business
Precision molding dies and plastic moldings business		Surface treatment equipment business
Surface treatment equipment business		

### 3. Timing of reportable segments changes

From the first quarter of the fiscal year ending December 2026, the Company will report based on the changed reportable segments.
