Q2 FY2026 Consolidated Financial Summary

Net sales

12,684

Million Yen

YoY Change $\triangle 24.4\%$

Operating income

123

Million Yen

YoY Change $\triangle 95.1\%$

Ordinary income

270

Million Yen

YoY Change $\triangle 88.6\%$

Net income(*)

35

Million Yen

YoY Change $\triangle 97.8\%$

■ Overview

- Both sales and profit declined year on year. Net sales fell short of the plan in the Semiconductor Equipment, Transfer Equipment and Surface Treatment Equipment Businesses.
- Profit also fell well short of the plan, reflecting the lower net sales, valuation losses on equipment not yet inspected and accepted, and provisions for additional costs identified on certain equipment.
- Order intake grew substantially in the Semiconductor Equipment, Transfer Equipment and Surface Treatment Equipment Businesses, marking record highs on both a quarterly and a cumulative basis.

(*) Net income: Net income attributable to owners of parent

Q2 FY2026 Financial Summary

Net sales fell short of the plan, mainly due to delays in inspection and acceptance in the Semiconductor Equipment and Surface Treatment Equipment Businesses. Profit also fell well short of the plan, reflecting the lower net sales, valuation losses on equipment not yet inspected and accepted, and the recognition of additional costs.

(Millions of yen)	Q2 FY2025 Actual	Q2 FY2026		YoY change (%)	FY2026 Initial H1 Estimate	vs. Initial H1 Estimate (%)	FY2026 Full Year Estimate	vs. Full Year Estimate (%)

Trend in Net sales by Segment(Quarterly)

- Surface treatment equipment business
- Precision molding dies and plastic moldings business
- Cleaning equipment
- Transfer equipment
- Semiconductor equipment

(Millions of yen)

Starting from the fiscal year ending December 2026, the business previously recorded under the "Coater" segment has been reclassified and reported in combination with the "Semiconductor Equipment" segment. Accordingly, past performance figures have also been restated under the same segment classification. For sales trends under the previous classification, please refer to the supplementary materials.

Trend in Net sales by Segment(Full year)

- Surface treatment equipment business
- Precision molding dies and plastic moldings business
- Cleaning equipment
- Transfer equipment
- Semiconductor equipment

(Millions of yen)

Trend in Sales Orders by Segment(Quarterly)

- Surface treatment equipment business
- Precision molding dies and plastic moldings business
- Cleaning equipment
- Transfer equipment
- Semiconductor equipment

Trend in Sales Orders by Segment(Full year)

- Precision molding dies and plastic moldings business
- Cleaning equipment
- Transfer equipment
- Semiconductor equipment

(Millions of yen)

Starting from the fiscal year ending December 2026, the business previously recorded under the "Coater" segment has been reclassified and reported in combination with the "Semiconductor Equipment" segment. Accordingly, past performance figures have also been restated under the same segment classification. For sales trends under the previous classification, please refer to the supplementary materials.

Trend in Order Backlog by Segment(Quarterly)

- Surface treatment equipment business
- Precision molding dies and plastic moldings business
- Cleaning equipment
- Transfer equipment
- Semiconductor equipment

(Millions of yen)

Starting from the fiscal year ending December 2026, the business previously recorded under the "Coater" segment has been reclassified and reported in combination with the "Semiconductor Equipment" segment. Accordingly, past performance figures have also been restated under the same segment classification. For sales trends under the previous classification, please refer to the supplementary materials.

3

Business Environment

- For WLP equipment for advanced packaging, order intake declined quarter on quarter following the large orders received in Q1, while orders for coaters and developers expanded. Future orders will depend largely on market conditions, but we remain optimistic. For equipment for power semiconductors, inquiries are gradually increasing.
- In transfer equipment, inquiries have risen sharply and order intake has increased. Despite challenges such as longer lead times for materials and responding to individual customer requirements, we are strengthening our domestic and overseas supply chains.
- For PLP equipment for advanced packaging, inquiries are increasing for the coating, debonding and cleaning processes we have long worked on. The inquiries vary in scale, and we are working to secure them reliably while expecting further market expansion.
- Inquiries for slurry supply equipment are increasing, and we expect further orders going forward. For wafer cleaning equipment, new projects remain limited and we expect recovery to take time.
- In surface treatment equipment, orders expanded for both wet processing equipment centered on plating and substrate transfer equipment. Given the very strong conditions in this market, we remain optimistic going forward.

In the 1980s, it entered the semiconductor equipment sector. From then on, we flexibly responded to the needs of the times, including FPDs, power semiconductors, and advanced packaging. Currently, we have shifted our sales focus from OEM to direct sales, and we are involved in process development for semiconductor manufacturing.

(1) Founding to the 1990s

Entered the semiconductor equipment business. Accumulated wet process and conveying technology centered on OEMs.

(2) 2000s

FPD equipment (OEM) has become the core of our business. The mid-2000s marked the peak of shipments.

(3) 2010s to Present

From FPDs to semiconductor devices. Expanding into power semiconductors and advanced packaging, sales shifted from OEM to direct sales.

■ Trends in Average Shipments by Period by Main Product Group

* Shipment numbers for 2025-26 include forecasts for the fiscal year ending December 2026. © 2024 TAZMO Co.,Ltd.

AI-driven expansion of the logic semiconductor market has significantly grown sales of TAZMO's advanced packaging equipment. TAZMO equipment is used in logic semiconductor manufacturing, where technical requirements keep rising.

■ Market size comparison:
logic vs. power semiconductors

Trend in Order Backlog by Conventional Segment

- 
- | Year | Milestone |
|------|--|
| 1972 | - TAZMO Co., Ltd. is incorporated to manufacture and produce electronic components and repair industrial equipment. |
| 1980 | - Began production of molding dies, including injection molding dies.
- Completed development of Fully-automated Photo Resist Coater; production and sales started. |
| 1989 | - Developed TFT Full-color filter manufacturing system; production and sales started. |
| 1990 | - Constructed new head office/plant at 6186 Kinoko-Cho, Ibara, Okayama
- Developed and produced Ultra Compact Transfer System for Super Clean Room. |
| 1994 | - Began production and sales of Emboss Carrier Tape. |
| 1995 | - Began production of injection Molding Products. |
| 2001 | - Developed "CS13" series Photo Resist Coater specialized for a thicker film application; production and sales started. |
| 2004 | - Listed on the JASDAQ market. |
| 2008 | - Established TAZMO VIETNAM CO., LTD. a consolidated subsidiary, in Ho Chi Minh City, Vietnam. |
| 2009 | - Developed 10th generation compatible full-color filter manufacturing system; production and sales started.
- Concluded a license agreement with 3M(USA) for semiconductor manufacturing equipment. |
| 2013 | - Apprecia Technology Inc. became our wholly owned subsidiary company.
- VIETNAM CO., LTD. Constructed new factory at Long Hau Industrial Park in Long An Province, Vietnam. |
| 2017 | - Facility Co., Ltd. and Quark Technology Co., Ltd. became our wholly owned subsidiary company. |
| 2018 | - Listed on the First Section of the Tokyo Stock Exchange |
| 2019 | - Constructed a new head office at 5311 Haga Kita-ku, Okayama-shi, Okayama |
| 2020 | - Merged with Apprecia Technology Inc. |
| 2022 | - TAZMO's listing transferred to Prime Market in Tokyo Stock Exchange.
- Increased capital to 3,495,400,000 yen through public offering.
- Established TAZMO SEMITEC SHAOXING TECHNOLOGY Co., Ltd. a consolidated subsidiary, in Zhejiang Shaoxing, China. |

Semiconductor Manufacturing Equipment Business Unit

Bonder / Debonder

- For Advanced Packaging(WLP *1 / PLP *2)
- For Power Semiconductors

We develop, design, manufacture, and sell temporary bonding and debonding systems that enable wafer thinning, an essential process for the production of high-performance chips. By bonding wafers to glass carrier substrates, our systems allow wafer thinning while preventing damage to the wafers.

Coater / Developer

Leveraging the expertise gained through the development and manufacturing of FPD production equipment, we enable uniform chemical coating and precise circuit formation by selectively removing only the exposed areas during the development process.

*1 WLP: Wafer-Level Packaging

*2 PLP : Panel-Level Packaging

Transfer Business Unit

- For Semiconductor Equipment Manufacturers (Wafers, Masks, and Related Components)

Cleaner Business Unit

We develop, design, manufacture, and sell single-wafer cleaning systems for wafer manufacturers, as well as slurry supply systems and equipment that recovers and reuses phosphoric acid from waste liquids.

Molding Business

We provide precision molds and resin molded products for connector manufacturers.

Surface Treatment Business

We provide plating systems for printed circuit boards used in semiconductor packages and electronic control systems for automobiles and other applications.

Notes

Forward-looking statements with respect to TAZMO's business plan, prospects and other such information are based on information available at the time of publication. Actual performance and results may differ significantly from the business plan described here due to changes in various external and internal factors.

This material takes as its objective the provision of information regarding the management policy, plans, and financial situation of TAZMO to shareholders, investors and other visitors. It constitutes neither an offer nor a solicitation to purchase or sell TAZMO stock.
