TAZMO CO.,LTD. (the "Company") hereby announces that it has revised its consolidated earnings forecast for the second quarter (interim period) announced on February 13, 2026, in light of recent performance trends.

2. Reason for the revision

Business of our group is centered on semiconductor manufacturing equipment for advanced packages, for which capital investment remains firm even in the semiconductor industry. However, consolidated net sales for the second quarter (interim period) of the current fiscal year are expected to fall below the plan due to delays in receiving inspection of shipped equipment. On the profit side, operating profit, ordinary profit, and interim net income attributable to owners of parent are also expected to fall below the plan due to factors such as a decline in net sales resulting from delays in receiving inspection, write-downs on equipment for which receiving inspection has taken longer than expected, and provisions for increased costs on equipment where such increases have been identified.

In light of this situation, the Company has revised the consolidated earnings forecasts for the second quarter (interim period) of the fiscal year ending December 31, 2026 announced on February 13, 2026. There are no changes to the full-year earnings forecast at this time.

* The above earnings forecasts are based on the information available as of the date of this announcement. Actual results may differ from the forecasts due to various factors going forward.
